

SEYED DANIAL SAJEDI

Robotics & AI Engineer | Python Developer | Computer Vision

Tehran, Iran | +98 902 132 6884 | sdanialsajedi@gmail.com | danialsajedi.com

PROFESSIONAL SUMMARY

Robotics and AI engineer with hands-on experience across Python development, computer vision, and robotics programming, validated by national-level competition results and an international gold medal. National Team Leader for Iran's Junior Robotics & AI program and an official FIRA judge, with a track record of mentoring competitors and teaching Python and web development to students preparing for national and international events.

LEADERSHIP & NATIONAL TEAM ROLES

National Team Leader, Iran Junior Robotics & Artificial Intelligence Team *Current*

- Lead and coordinate robotics and AI projects and competition strategy at the national level.
- Mentor team members and represent Iran in national and international robotics events.

Member, Iran University Robotics & Artificial Intelligence National Team *Current*

- Contribute to advanced robotics and AI projects, applied research, and international competitions.

Official Judge, FIRA (Federation of International Robot Association) *Current*

- Judge national and international robotics competitions, evaluating technical performance, innovation, and adherence to competition standards.

HONORS & AWARDS

- 1st Place, Air Autonomous Race U19** — FIRA World Competition, Daegu, South Korea (Aug 2025)
- 1st Place, RCAP CoSpace Autonomous Driving U19** — RoboCup Eurasia, Abu Dhabi, UAE (Nov 2025)
- 1st Place, Smart Home U19** — FIRA Eurasia, Van, Turkey (Nov 2024)
- 1st Place, Super Team** — FIRA Eurasia, Van, Turkey (Nov 2024)
- Best Technical Award** — FIRA Eurasia, Van, Turkey (Nov 2024)
- 3rd Place, Smart Home U19 PTP** — Olympics of Tech, Iran, Iran (Oct 2024)
- 4th Place, Smart Home U19** — FIRA Iran, Tehran, Iran (Apr 2025)
- Best Team Work Award** — FIRA Iran, Tehran, Iran (Apr 2025)

WORK EXPERIENCE

Teaching Assistant & Instructor *Nov 2025 – Present*

Novinzehn Academy — Tehran, Iran | www.novinzehn.com

- Teach Python programming to students competing in the Smart Home League.
- Prepare students for national and international robotics competitions through hands-on coaching.
- Deliver website design training courses covering HTML, CSS, and front-end fundamentals.
- Serve as Python Teaching Assistant, supporting curriculum delivery and student progress.

Python Programmer *Jun 2025 – Aug 2025*

www.kitco.ir

- Built JSON validation and API testing tools used for backend quality assurance.
- Implemented a national ID validation system for production backend use.
- Delivered real-world backend validation features using Python.

Freelance Web Developer

- Built and deployed two client websites, handling front-end and back-end implementation.
- Carried out testing and performance optimization across both projects.

EDUCATION

High School Diploma, Informatics

Sep 2023 – Jul 2026

Informatics High School — Tehran, Iran | www.it-school.ir

TECHNICAL SKILLS

Programming: Python (Advanced), JavaScript (Advanced), C#, C

Web Development: React.js, HTML, CSS, API Development & Testing, JSON Validation

Robotics & AI: Robotics Programming, Computer Vision

Networking & Systems: Linux Fundamentals, IPv4 & IPv6 Addressing, DHCP, EIGRP, FHRP, GRE

CERTIFICATIONS

- **Linux Essentials** — Linux House of Iran (Jun 2026)
- **Artificial Intelligence and Computer Vision** — Tehran Institute of Technology (May 2026)
- **Network+** — Anisa Linux House of Iran (May 2026)
- **React.js Programming** — Tehran Institute of Technology (Sep 2025)
- **HTML & CSS** — Tehran Institute of Technology (Sep 2025)
- **Advanced Python Programming** — Tehran Institute of Technology (Jul 2025)
- **Advanced JavaScript Programming** — Tehran Institute of Technology (May 2025)
